

TeleVoice Workout Testimonials

"I feel I got my money's worth and then some. She was great very patient, able to direct me in a manner that brought out the best in my voice. I was at the point that I was having doubts about making this career work for me. Directing yourself just does not work for me, I need someone to sound off to for feedback, I get lonely behind the mic (ha, ha) Deb you found things in me that I could not, thank you.

I am intersted in anything you might offer, I got a feeling of genuine compassion from you Deb, you realy care for people and it is reflected in your voice and work with all of us. There are few people in this world that are not just about the MONEY, and it is refreshing to meet someone like you. I am usually a good judge of character, I feel you are the person to help me further my career."

"...even though it was only two hours I was engaged the whole time. Listening to you teach others was very helpful.. Deb's amazing how quickly she can interpret how to read copy. And how quickly she can hear things in peoples voices and lead them to redirect. I would definitely do it again. Especially if there is a script that's giving me trouble. I could save it and 'bring' it to class. I am very interested in other sessions/workouts through mic n me.com"

".I like hearing Debbie's reads on our scripts...it helps me remember what different reads are supposed to sound like. I liked getting the references to other helpful resources like the on-line dictionary for pronunciation. I like her stories sharing her experiences in the business. I liked the opportunity to ask her questions. Debbie is very supportive. She gave us little things that we can work on in the time allotted AND things we can work on afterwards"

"I was a bit concerned about having any kind of lessons via the telephone, but after having a trial lesson with Debbie all my fears were put aside, and I have been hooked ever since! What I love about Debbie's lessons is that they are always varied, structured and lots of fun. She can easily identify both my strengths and weaknesses and help me improve.

I have only been having lessons with Debbie for a few months, but I am already really surprised at how much I have improved - I'm far from being a pro but I am definately on the road! Debbie is also very honest with my efforts and praises me when I do well, but also lets me know when I do something that could be better - which I think is something you don't often get with coaching (in many fields - not only that she is very patient and can put up with me when I go into hysterical fits of laughter :-D

Debbie even managed to hook up my studio via televoice and skype in less than an hour. I would recommend Debbie to anyone who has an interest in becoming a voice over - no matter where in the World you are."
